What's new at CCEMA?

National Emergency Management Basic Academy

CCEMA is looking to bring the Basic Academy to Maine for the first time. We are assessing interest in the region to inform our planning process. Below is a description of the Basic Academy for more details and a survey which we ask you to complete if you would be interested in attending. Please note, there is no date or location set for the Academy, we are only assessing general interest at this time.

NIMS Training Guidance for Maine

I've added MEMA's NIMS crosswalk, which outlines the NIMS training required for different positions, to the "helpful links" section. Please review this and distribute to the relevant individuals in your jurisdiction. I'm more than happy to work with you for your training needs. 

Dirigo Safety Training

CCEMA is looking to partner with Dirigo Safety to provide a training free of cost to our partners. Let us know your preference [on this survey](#).

Options include "You're the Boss...Now What?" and "Stress Management for HEROES."
